

Marco Ecoboiler T and P Series

Hot Water Boiler

The Marco Ecoboiler is an energy efficient boiler with a compact footprint. It is available as either a push button (for front of house) or as a tap version (for back of house).

It is made with 95% recyclable materials and has a small counter footprint, with low energy consumption. The machine is available as 5, 10, 20 or even 30 litres.

Ideal for all catering, hotel and restaurant environments.
