

# Marco Quikbrew Single and Twin

## Filter Coffee Machine

The Marco Quikbrew Single and Twin is a filter coffee machine ideal for very high volume sites such as; hotels, banqueting, and large canteen environments.

With Gold Cup standard coffee it ensures that you deliver a delicious high quality drink to your customers, patrons or employees.

# Marco Quikbrew Single and Twin

---

## BENEFITS

- Excellence in coffee
- Durable due to stainless steel construction
- Half and full brew feature for flexibility
- Separate hot water and coffee taps to prevent contamination
- The twin machine offers two coffee urns, so there can be two full brews running simultaneously
