

NEO

Freestanding Coffee Machine

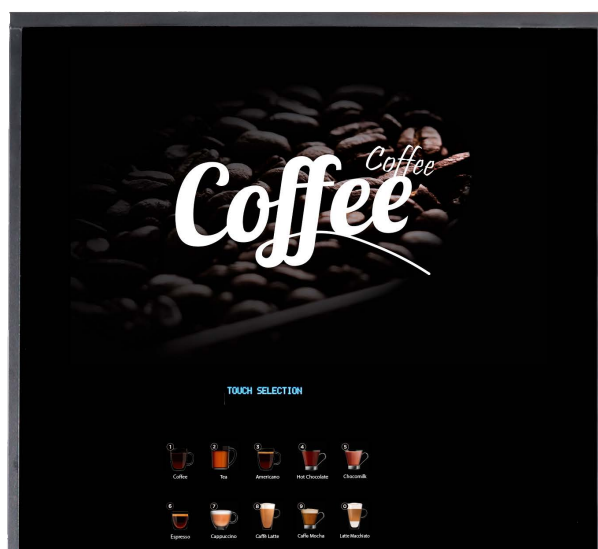

The NEO machine combines a stunning visual design with delicious coffee at the touch of a screen. It combines coffee, chocolate and frothed milk to create a variety of coffee shop style drinks.

The machine is available in seven different specifications including; instant, single fresh brew, double fresh brew, triple fresh brew, bean to cup, espresso and espresso barista.

BENEFITS

- Touch screen selection for a quick and easy customer experience
- Eight canister dispense system bringing a true espresso straight from the bean
- Cup sensor allows use of own cup, reducing plastic and paper cup usage
- Eco mode to help reduce energy consumption
- Simple Text Alert system allows real-time reporting of machine issues - reducing downtime
- A wide range of drink selections to rival any high street coffee shop menu
