## Freestanding Food Vending Machine

The Shopper 2 machine has been designed to meet the varying needs of a 24 hour refreshment service.

Trays can be easily configured to hold a range of food options, from plated main meals to small snack items, maximising the available space and offering customers a wide product choice.

# Shopper 2

## BENEFITS

- 9 levels each with 127mm tall vend doors allowing for optimum product visibility and easy access for users
- Powered vend doors on all levels allow easy, one handed operation
- Increase sales with the two way drum rotation, speeding up selection time
- New refrigeration design and improved airflow provides even temperature distribution
- The machine can help provide a healthy vending option for schools, sports centres, canteens etc.
- Each shelf can be divided into 5, 10, 15, 20 or even 25 compartments
