# Drink coffee ... ...the SMART way

With high capacity, high performance, German design and superior quality, the SmartQube X is the most innovative coffee machine to date.

The SmartQube IOT Cloud offers you the complete package: track and analyse live data, monitor machine status and beverage consumption, manage maintenance, adjust the recipes and personalise the videos remotely.

## 1. 3 Setup Modes

Three application scenarios – Standard, Professional and Self-service are pre-installed. Whether in a hotel, café or convenience store, it's easy to choose your favourite user interface and enjoy the customised operation experience.

## Machine Tracking IoT

Android System  
IoT Cloud offers you the complete package: track and analyse live data, monitor machine status and beverage consumption, manage maintenance, adjust the recipes and personalise the videos remotely.

2. Capacity  
Bean Hopper:  
1200g  
Instant hopper capacity:  
1500g & 1200g

Powdered or fresh milk options. See full machine range on page 4.

3. Display  
The 10.1" colour touch display with the Android system is easy to operate. It offers personalisation and advertisement options which brings an intelligent mode of human-computer interaction. The variable lighting around the display suits any ambience while flashing lights remind you to clean or maintain your appliance.

30+ Drink Options  
More than 30 drinks can be enjoyed at the touch of a button. A separate hot water outlet makes it easy and efficient to prepare various tea beverages.

Water Supply Options  
Fixed water  
Barrelled water  
Tank water

Dimensions: H:690mm W:380mm D:560mm    Water tank volume: 4L    Weight: 30kg    Voltage/ Frequency: 220-240V – 50/60HZ
