

**Choose the trolley that is already used  
on hundreds of wards across the UK.**

#### **The Hospital**

The Whittington Hospital has selected Refreshment Systems to provide a complete beverage solution for the wards.

The Whittington Hospital is an acute general teaching hospital that provides hospital and community care to 500,000 people. Serving primarily the communities of north Islington and West Haringey, the hospital also treats a significant number of patients from Camden, Barnet and Hackney. It has 350 beds and employs over 2,000 staff. It is one of the teaching hospitals of the University of London. Whilst providing clinical placements for undergraduates, it also has a large post-graduate training centre. In addition, it provides training for a wide range of other health professionals including nurses, midwives, radiographers and dieticians.

#### **The Requirements...**

We know that helping to promote healthier eating and drinking is important, it is also crucial that we improve the user experience. At Refreshment Systems we're not just driving the technological revolution in vending, we have also developed a new way for you to provide patients with food and drink whilst also improving efficiency. Refreshment Systems provide The Whittington Hospital with their completely future-proof Nightingale Ward Beverage Trolley.

#### **The Catering Manager**

"We have been working with Refreshment Systems for over 10 years and throughout the years, they have provided us with many innovative solutions that has met the expectations of The Whittington Hospital. The most ingenious product that has helped us at the hospital is The Nightingale Ward Beverage Trolley. The trolleys that we have around the wards have been branded up with The Whittington Hospital logos and with the design of the new trolley, they're built to an extremely high specification, as well as being extremely reliable."

#### **The Team members**

"The new ward beverage trolley that Refreshment Systems have provided us, has helped Domestic staff and the nurses out massively. The trolley is 20% lighter than the original and can hold 10 litres of water. This saves us time with the larger capacity and the reduced weight and lightweight frame makes it easier for us to manoeuvre around busy wards."

# Our ward beverage trolley... ...designed with you in mind

## A Complete Solution

### Helping you to improve the experience of your patients

As an NHS approved supplier we not only offer our ward beverage trolley packed with innovation for your hospital, but also solutions for your patient and staff cafes, operated vending and out-of-hour hot beverage requirements.

We have worked hard to produce a trolley that not only looks great but can withstand the rigours of a tough hospital environment. Using first hand market research every detail has been carefully considered; From the boiler capacity to ample lockable storage, as well as compliance with NHS standards concerning manoeuvrability and weight.

We have demo trolleys we can bring on site for live demonstration, beverage testing and trials.

1. **Stainless steel worktop**  
Hygienic and easy to clean  
Bevelled edge to contain spillages  
Flip end extension option

2. **Lightweight aluminium frame**  
Reduce weight and ease of manoeuvrability

### Ingredients

With a simple solution to order your ingredients either by phone or email, you can receive your products the very next day (when ordering before 12 noon). We stock a wide range of products from coffee beans, to teas, to healthy eating snacks, plus a wide range of ancillary items.

3. **Lockable lid**  
To meet infection control standards – also prevents boiler lid from being opened from a health and safety perspective

4. **Cannisters**  
Click system for accurate dosing  
Close off mechanism for when moving around and filling  
Easy to remove for cleaning  
In cup option available

- Reduced height**  
Safer and easier to move around the wards

5. **Boiler**  
10L capacity- 50 x 7oz cups  
Cannot boil dry – less downtime  
Commercial boiler made for high usage  
Sight glass for water level  
Tap guard  
Removable drip tray for cleaning

6. **Mains cable breaker**  
For safety if trolley is accidentally pulled away from wall  
Prevents damage to mains cable – reducing downtime
